

Management Skills for an IT Environment - 4 dagar

kurser 906

You Will Learn How To

- Apply a proven management model for leading technical staff to excellence
- Identify key success criteria for leadership in an IT environment
- Leverage emotion to optimise communication and performance
- Motivate and empower technical professionals to achieve results
- Delegate proactively to focus the strengths of IT teams and build accountability
- Reinforce performance with a shared vision and effective coaching

Course Benefits

Your success as a manager in the IT environment depends on applying people-oriented skills to lead and motivate technical experts. Throughout this course, you practise the key skills and behaviours to get the best from technical people. You learn to lead with vision, motivate and empower with passion, facilitate effective communication and delegate with clarity to individuals and teams.

Who Should Attend

IT managers wishing to expand and improve their skills and those new to managing technical experts. This course is aimed at those managing technical professionals in an IT environment. For a fundamental management skills course, please refer to Course 290, "Management Skills".

RealityPlus™

In an immersive environment, you participate in an IT-focused, multimedia case study, as well as individual and group activities to apply management tools, techniques and strategies. Activities include:

- Identifying and personalising your management approach
- Mapping team and stakeholder interdependencies and potential conflicts
- Developing motivational strategies for technical and non-technical individuals
- Delegation role play within a simulated IT case study application
- Designing a team-building event
- Observing and enhancing your emotional intelligence
- Managing performance to promote and leverage the strengths of your staff
- Assessing the impact of disruptive behaviour in the workplace
- Creating your managerial vision to determine your next steps

Management Skills for an IT Environment - 4 dagar
